

YouTube Download Instructions & PowerPoint Insertion

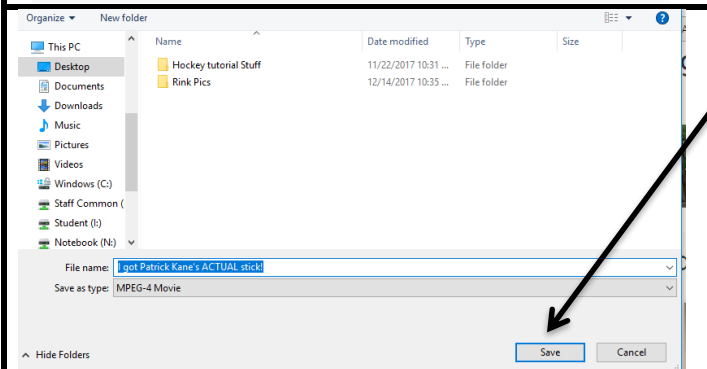

- Go to www.youtube.com and find a video to download.
- Highlight and copy the URL (address) of the video you wish to download.

- Go to www.keepvid.com
- Paste the URL (address) into the box shown to the left.
- Click on the BLUE down arrow download button

Quality	Format	Size	Downloads
1080P/4K (Pro Version)	MP4	--	Download Pro
(Max 720p)	MP4	--	Download
480p	MP4	32.8M	Download
240p	3GP	11.8M	Download
144p	3GP	4.3M	Download
360p	WEBM	41.8M	Download

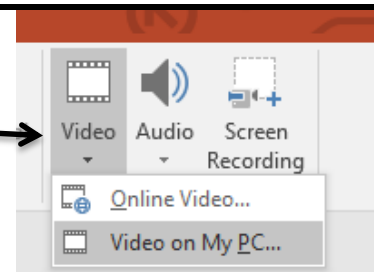

- Select the file format that suits your needs.
- **(max 720p) MP4** is the highest resolution available for free.
- Turn youtube videos into **MP3** music file by pasting the video URL into <http://youtubemp3.to/>

- Select, "Save"
- Be sure to save the video file to the same location as your PowerPoint presentation

How to put your video into PowerPoint:

1. In PowerPoint, Click the "Insert" tab
2. Click the "Video" icon
3. Select "Video from my PC"
4. Find and select your converted video file.

- You can resize by grabbing a corner node.
