<b>Enviro Sci</b>	Did you know that currently only 15% of global textile waste is properly recycled? Not only does this hurt our environment, but it is a waste of resources, money, water, and energy. This month we will be running a textile collection drive at our school. Please bring your unwanted clothing to your homeroom class or the bin outside the main office to help give it a new life and raise funds for kidney disease research and our school's environmental initiatives!
